

60 Skip Counting

Materials

- Film container of any kind
- Reproducible label: Skip Counting by _____ (fill in a number)
- Bingo chips or foam chips
- Permanent marker or pen
- Hundreds Chart reproducible (see page 136)

Directions

1. Using a permanent marker for bingo chips or a pen for foam chips, write the appropriate skip-count numbers on the chips and place them in the container. For example, if you want the children to skip count to 10 by 2s, you will have 5 chips in the container marked with 2, 4, 6, 8, and 10.
2. Have a child place the chips on the correct squares of the Hundreds Chart. (You might also have him mark the squares on the chart that had chips on them and hand the chart in to you.)

Consider This:

Use different-color chips for each set of numbers (2s, 3s, 5s, 10s, and so on) so the children will be able to see what numbers the different skip countings have in common when the chart is covered with multiple sets at the same time.

Hundreds Chart (pages 56 & 60)

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100
