

Generate and

Download New Files

1. Hook up your iPAQ with your Sync cable to your computer and wait for the ActiveSync program to connect. Your iPAQ needs to be connected through this entire process... so be careful not to Disconnect.
2. On your computer, go to <https://mxweb.media-x.com/home/louisianausa/> and login with your iPAQ username and password.
3. Click on the eWalk logo in the center of the page.
4. Go to the green button "Handheld" and click on the link "Generate Files."

Louisiana - USA	
Username:	<input type="text" value="vickib"/>
Password:	<input type="password" value="*****"/>
<input type="button" value="Login"/> <input type="button" value="Register"/> <input type="button" value="Lost Password?"/>	

(Note: For steps 5 and 6 you must uncheck then recheck the box in the "Templates" and "Select School" sections or you will not see any new teachers added to your roster.)

5. Place a check in the box in front of "Classroom Walk-Through" under the Templates section. Under Categories section on the right, just ignore that for now ☺
6. In Section 2 called "Select School," click to put a check mark in front of your school. If you work with multiple schools, click them individually ... or... click "Select All."
7. In Section 3 click the "Generate Files" button on the right.

1. Select templates and/or categories (Selecting a category will select all templates within that category)	
Templates <input checked="" type="checkbox"/> Classroom Walk-Through	Categories <input checked="" type="checkbox"/> Walkthrough
2. Select School	
<input type="checkbox"/> Tangipahoa Parish Schools <input type="checkbox"/> Amite Elementary School <input type="checkbox"/> Amite High School <input type="checkbox"/> Central Office <input checked="" type="checkbox"/> Champ Cooper School <input type="checkbox"/> Chesbrough Elementary School <input type="checkbox"/> Crystal Street Academy	
<input type="button" value="Select All"/> <input type="button" value="Deselect All"/>	
3. Generate Files	
Files Status <input type="button" value="Generate Files"/>	
Handheld Configuration	
IP Host	mxweb.media-x.com
System ID	144
User Name	vickib
Password	*****
Handheld Setup	<input type="button" value="View Handheld Setup"/>

8. Go to your iPAQ and tap "Start" then "Programs" and then tap "eWalk."
9. On the iPAQ screen you will tap the "Upload/Download" button.

10. Tap the "Upload/Download" button and under the first section, "Download Template Files generated and" tap to put a check mark in front of "Download Subjects (Staff, Students, etc.)" then tap the big "Download" button at the top of the screen.
11. The Status bar at the bottom of your iPAQ will start transferring files and when it finishes, it will say "DONE."
12. Now tap the "Return" button at the bottom of the iPAQ screen.

You have now successfully generated new files and installed them to your eWalk program on your iPAQ.
