

## iPAQ Daylight Savings Time Fix

We have been having problems with our iPAQs keeping the correct time when we sync to our computers because of Daylight Savings Time. Well, many, many thanks go out to Lyndy Painting Pier for finding the fix for our problem.

Read all the directions below BEFORE doing anything ☺

Go to this link

<http://h20000.www2.hp.com/bizsupport/TechSupport/SoftwareDescription.jsp?swItem=ip-47408-1&lang=en&cc=us&idx=0&mode=4&> and you will find the HP iPAQ Daylight Savings Time Fix. ...

Follow these directions:

- ☞ Hook your iPAQ up to your computer with your syncing cradle or cable and let it sync with your computer.
- ☞ Click on the link above and click on the Download button on the right hand side of the page.
- ☞ Save that download to your computer
- ☞ When the download is finished, click to Run it
- ☞ As it is installing, you will see that you have to go to your iPAQ and tap the OK to install question when it pops up on your iPAQ.
- ☞ Close out of everything when finished
