

SECTION IV: OPERATIONS

CC. DESIRED SCHOOL BUS ROUTE PROGRAM

The Transportation Department will survey each driver annually to allow them the opportunity to select up to three desired routes. If one or more of a driver's desired routes becomes vacant, then that driver would automatically be considered as meeting the advertised deadlines. If the driver is the most senior driver, then they will have the option of accepting the vacant route. By placing a route on the Desired Route List, the driver is not committing to accepting the route but only to having an option to accept the route if it become vacant.
