

Welcome to HEEM's Fashion Show!

Puppet Pals app is one of the most fantastic adventures in Learning. It is available for the iPod Touch, iPhone and iPad. The free version comes with Wild West backgrounds and actors and with the paid version you get many other scenarios such as pirates, fairies, monsters, farm setting and fairies. It is fabulous for storyboarding, character writing, speaking and listening as well as for just brilliant good ole fun!

Today, with a partner, you will create a show demonstrating your knowledge of Spanish vocabulary and expressions related to clothing and the seasons. Your presentation may include a variety of clothing items people wear throughout the year, their names and colors, etc. This is also a good time for you to let us know what type of clothing you like best as well as your favorite season. Just let your imagination go wild!

Creatively,

Your Spanish teacher
