

Follow these steps to install the Vidyo software on to your computer.

1. Open the internet
2. In the address bar, type [vc.tangischools.org](http://vc.tangischools.org)
3. Click on "Download VidyoDesktop".

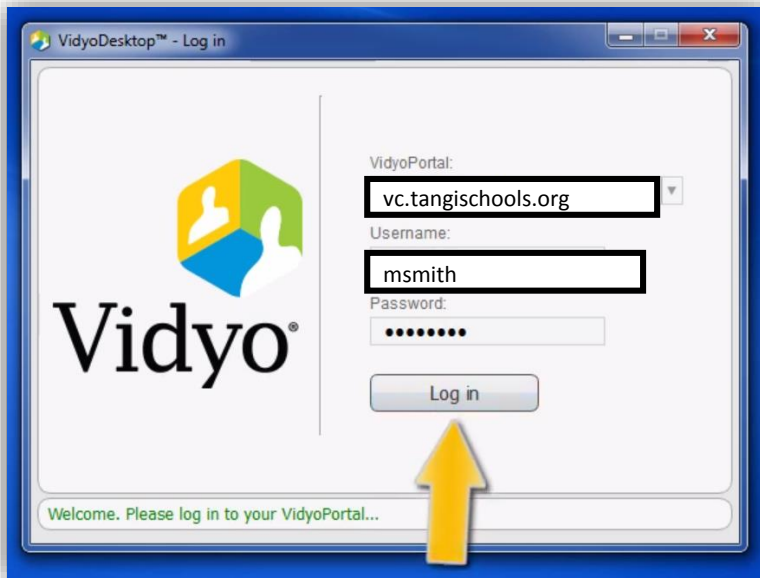

4. When the setup opens, click "Next"
5. Select "I Agree" to accept license terms

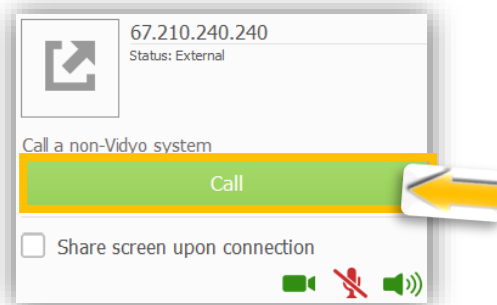

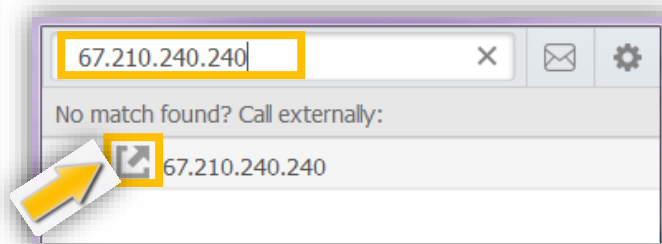

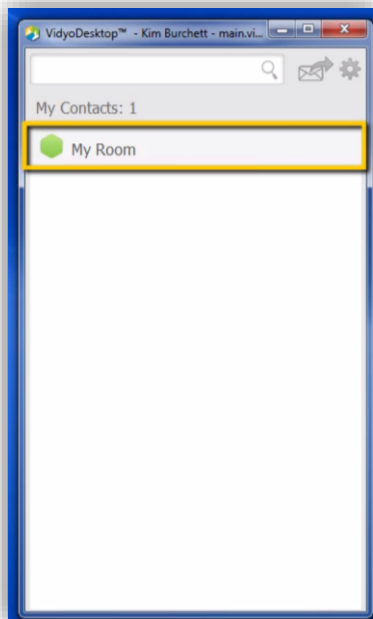

6. Click "finish" to complete the set

7. Enter `vc.tangischools.org` in the VidyoPortal box.
8. Enter your **Tangi username and password** (same as email)
9. Select "Log in"

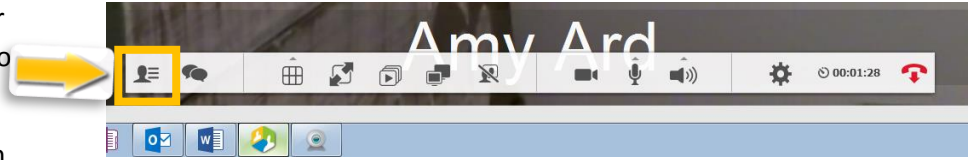

10. The Vidyo Desktop will appear
11. You can join your room and dial a connection!

## Calling into a room with a conference PIN or ID

Follow the steps above then move your mouse over the bottom of the screen to reveal a toolbar.

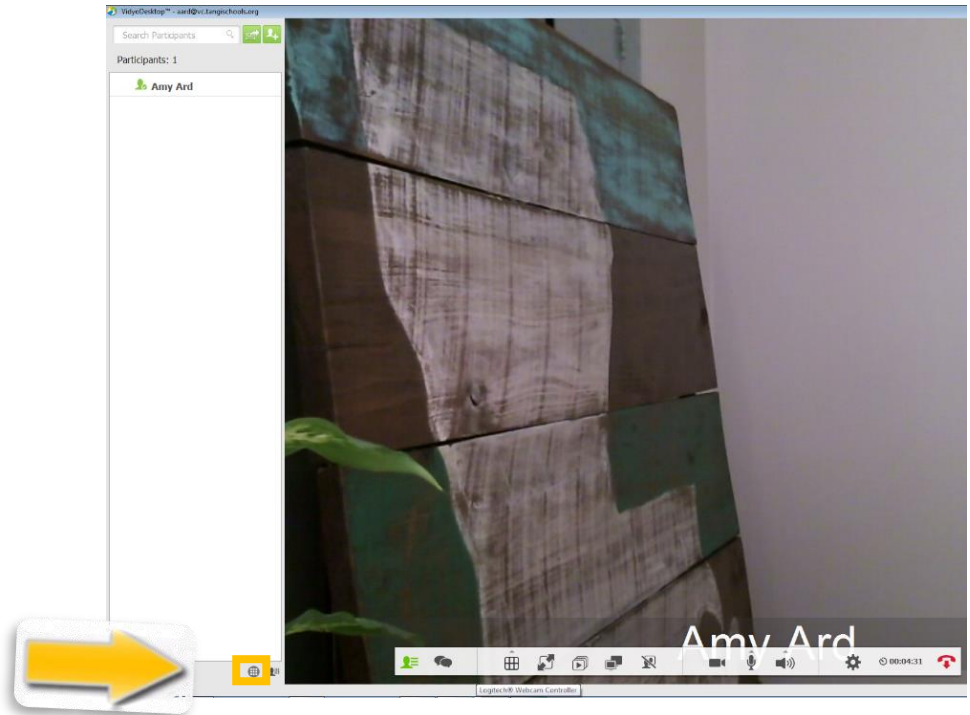

Click on the "Show Participants" button.

This will reveal a participants pane.

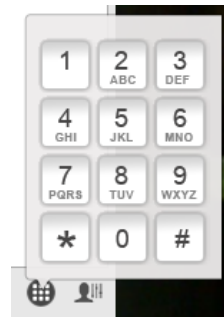

At the bottom of the screen click on the

"Keypad." 

Then dial the conference Pin or ID and hit # when you finish.

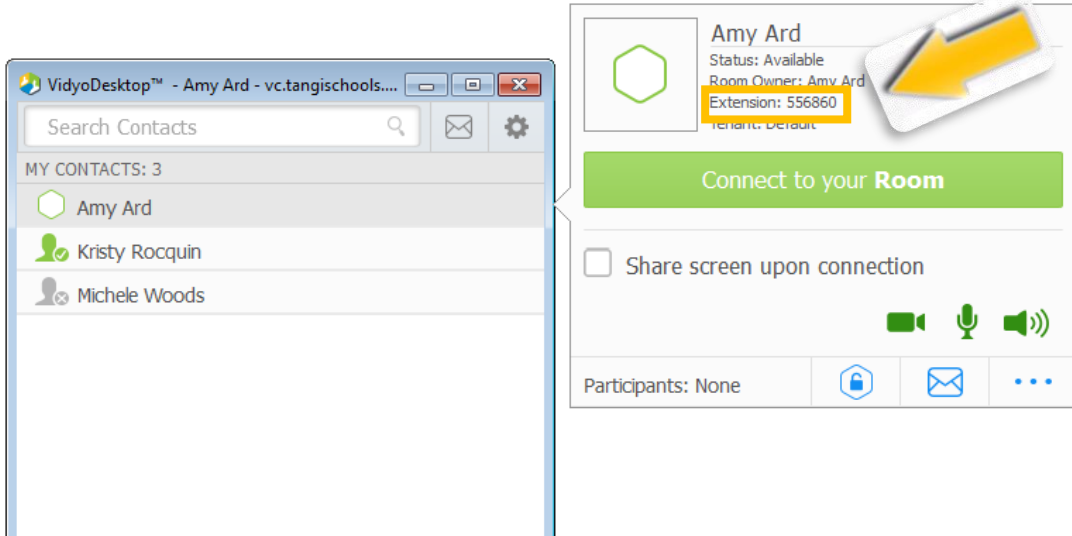

This will enter you into the provider's conference room.

## If a provider calls into your room

Give the provider your IP: 208.79.184.10

They will dial the IP and then enter your conference code which is your extensions and #.

Then you will "Connect to your Room."
