## Standardized State Testing

- SAME as other traditional students
- Taken, and credited to their home-based school
  - Scores are used for individual virtual teacher evaluation (SLTs)

## How does this happen?

Communication between Virtual Program, Home-based school, students and parents.

- Schools notify us of testing dates. They set schedule and include virtual students on their testing rosters, as if they were traditional.
- We email dates and all information to parents and students
- Students report to school on their assigned testing days

All other assessments are taken within the Virtual Program with the teacher of the course.

(DIBELS, High school assessment for graduation, benchmark, etc.)
